

LAGOON 52 GRAND LUXE

OWNER'S PREMIUM SUITE

ABOUT US

If you want to make sure you have a wonderful holiday, and value excellent on-board service, then this is the catamaran you've been looking for.

If you want to make sure you have a wonderful holiday, and value **excellent on-board service**, then this is the catamaran you've been looking for. Experience the pleasure of sailing in the majestic **Lagoon 52 Grand Luxe**. Its space, elegance and safety, mean an unforgettable experience. All of this along with our **unbeatable crew, exclusively dedicated to the Flow catamaran, and our desire to do things well, are what make us stand out from the rest.**

Even on the first day, you'll realise that it was worth choosing the Flow catamaran for your holiday and on the last day, all you'll want to do is repeat the experience as soon as possible with us.

This is one of the most environmentally-friendly vessels

Its 16-metre length and 9-metre beam make the catamaran a comfortable 200 square metre floating villa, divided into three sections that make sailing and being on-board a gift for the five senses.

Fully equipped, the catamaran has four luxurious suites (one of which, that of the owner, is a **premium suite that is more spacious and comfortable**); all have large beds, 160cm wide, full bathrooms and independent air-conditioning, the boat has Bose Bluetooth hi-fi, Smart TV in the living-room and stern suites, an ice-maker, water purification system, generator, solar panels, a large 4-metre auxiliary vessel that means getting onto dry land is simple, satellite telephone, and all the safety equipment needed to go round the world.

One of the great advantages of the catamaran is that, unlike conventional yachts, it hardly heels (leans). So, while you're sailing, you'll be able to enjoy the food, the silence, sunbathing, a good book, and contemplate the sunset in comfort. Don't rush to get anywhere, just ask the crew to hoist the sails whenever they can, and have fun sailing the seas as if there was no particular place to go. That's what sailing's about!

You can forget about the shopping and organisation, we'll take care of absolutely everything so that you can enjoy your Mediterranean holiday from start to finish on board this wonderful catamaran with a charming crew, and excellent, top quality service.

Thank you!

DISPLAC.	22,497 TONS	BASE PORT	SAN ANTONIO

ECOFRIENDLY

You may not be aware of it, but **this is one of the most environmentally-friendly vessels**. Firstly, you should know that the **anti-fouling treatment we carry out on the hull uses biocide-free paint**. Currently is the treatment that most respects the sea and its bio-diversity. **This catamaran uses the same amount of fuel in one week as a motor-boat does in 3 hours**, and even less if the sails are hoisted. **Sailing is the planet's most sustainable means of transport, and also leads to an intense feeling of happiness**. Remember that this catamaran is self-sufficient, given its water purifier and solar panels, so you only come into port if you want to.

All the paper used on board is recycled, soaps and detergents are made with natural products that are respectful of the environment, and we recycle garbage.

This catamaran will offer you courtesy vegan sun-cream. Using them, you'll contribute to the protection of our planet as, unlike other creams, its formula is **free of oxybenzone, a substance that harms seabed flora and coral**.

This fantastic **eco-friendly** catamaran is run by an exceptional crew: excellent professionals who really enjoy their work, and will make your stay an unforgettable one. Thanks to them, and our commitment to the environment, we can offer you both responsible sailing and a unique experience.

Thank you

MENU & DRINKS

A GREAT IBIZA RESTAURANT IS ON BOARD

All dishes and drinks on this menu are included in half- and full-board.

In fact, it's not a closed menu, but rather acts to give you an idea of what can be cooked on board. Our chef will surprise you every day with his suggestions, and you can decide what you fancy eating before he starts cooking. He is also good at adapting to your needs, so if you have any other ideas, he'll gladly cook them.

We can also adapt our menus for vegetarian, vegan, children, celiac or diabetic diners.

The prices are an actual average of the cost price of the purchase of food, wine, and other drinks. We guarantee the best service with high quality products; as far as possible, these are organic and locally-produced.

Other food and drink will be taken on board on request. If the costs are higher than those of the menu we offer, the purchase price only will be charged.

Thank you!

DRINKS
